	Worldwide economic system;	6 · · · · · · · · · · · · · · · · · · ·
	Banking, commerce, trade, shopkeeping;	Americas: exploitation by Europeans; slavery part of
	Middle class emerges;	economic system;
	Trade and commerce become the foundation of	Industrialization: Europe and U.S.
	wealth;	
	Capitalism;	
	Metals from New World affects European	
	economy; Inflation in all aivilizations:	
	Inflation in all civilizations; Slave trade becomes major economic activity	
	Industrialization displaced agriculture as the	European and U.S. Industrialization: Mass culture
	largest sector of the economy;	appears; new forms of energy; social problems and
	West became capitalist;	issues; rise in population; capitalism, socialism, and
	Class structures; more urbanization;	communism; trade unions emerge; more powerful
	Slavery major economic activity	weapons
		Colonialism and Imperialism: easier to conquer;
		colonies used for natural resources and minerals;
		increased industrialization leads to new reliance on
		slavery;
		Meiji, Japan: sent men to study industry in Europe;
		could be shot if not following orders in factories
		could be shot if not following orders in factories
		Africa: 1800s slave trade becomes illegal;
		Latin America: failed to industrialize
	Rise of communism and socialism;	Wars led to major political control of economies as
	Huge growth between wealthy and poor;	countries had to mobilize for war; loss of colonies;
	The west became fully industrialized as did	Russian communism; globalization of the economy;
	Canada, U.S., and Japan; World aconomy vary interdemendent:	Asia Africa and Latin American relience on cash
	World economy very interdependent; Developed and developing world;	Asia, Africa, and Latin America: reliance on cash
	Post industrial economies based upon services,	crops
	information, and technology;	
	Multinational corporations;	
	End of communism led to painful adjustments to	
	new system
